

## **Strategies for using ICT in your classroom**

Below are some links to helpful sites press control to get the hand hover and click on the site you want. Check them out and bookmark into favourites: Click favourites/add favourites. A good idea is to organise your favourites for easy access. When you get the add favourites browser click on the new folder icon (folder with asterisk on it) name your folder eg maths/english/etc and click okay to drop your site into the folder. When you scroll over your folders the contents will appear at the side. This saves you having a huge list to scroll through when you are looking for a specific site.

[http://www.techlearning.com/db\\_area/archives/TL/2002/10/copyright.html](http://www.techlearning.com/db_area/archives/TL/2002/10/copyright.html)

Copyright is a big issue these days, read about it here and find out all about the issues!

[TKI - Home](#) This is the link to our Ministry site, good luck with your navigation!

[Welcome to Teaching OnLine](#) This is the Starters & Strategies magazine site for NZ

[I.C.T. Teaching Ideas](#) A good UK site with lots of ideas

[Sites for Teachers](#)

[Worksheets, Teaching Tips, and Rubrics from TeAch-nology.com](#) make your own worksheets and awards

[RubiStar Home](#) Makes tailor made awards/worksheets with you name on or child's name

[http--www.teachervision.com-tv-printables-0130533688\\_ALFL0404.pdf](http--www.teachervision.com-tv-printables-0130533688_ALFL0404.pdf) More printable worksheets etc

[Teaching With Technology Tutorials- Learn about teaching w-technology](#)

<http--www.jigsawhelper.org-template.htm> A good template to encourage co-operative learning

[ePALS - Search](#) My son started this at Intermediate and still uses it at fourth form

[NZCER \[July 2000\] Assessment Resource Banks](#). Fantastic assessment tool, you need to get a password for access, if you can't get in see me and get mine.

[KiwiCareers - Home Page](#) Not too early for year six to think about their future careers.

PERP programme might like this.

[The Teacher's Desk, Educational Resources](#)

[teachers@work](#) I worked with Mark Treadwell who created this site for New Zealand teachers, it is great.

[Teaching Extras for the Classroom](#)

[Report cards and parent conference tips for teachers!](#)

[Reproducibles @ InnovativeClassroom.com](#)

[Printables](#)

[Ministry of Education Grade 5 Learning Activities](#) These produce good activity sheets

[A ton of Web Resources such as sounds, icons, buttons, rulers, animated gifs, backgrounds, clipart, and movies](#). This might be handy when you are creating interesting teacher web pages on our school site, save the ones you want and download them into the image library on the web site.

<http://www.easytestmaker.com/> Make and design your own tests

<http://www.apple.com/education/dv/tips/index.html> Tips and guides for making your iphoto slideshow or imovie. Check out the apple education site while you are there.

## **English**

Use these activities as group tasks in your reading/literacy programme or have a rostered ICT use chart on the wall.

- Get the children to put their spelling words into the word search creator or word jumbler at [www.superkids.com](http://www.superkids.com)
- Make word puzzles at [www.puzzlemaker.com](http://www.puzzlemaker.com) Children could make word puzzles and share them with others.
- WebQuests. Try all the other sites listed for English, there are heaps of activities. Don't forget the WebQuest section. There are some good English WebQuests eg; Harry Potter. You will need to check them out first to make sure they are suitable for your class. I have made a site at [www.freewebs.com/blanchfield/webquest/](http://www.freewebs.com/blanchfield/webquest/) go to the About WebQuest page and click on the Bernie Dodge link, this takes you to the main page, click on Examples and you will get a huge resource of webquests in all subject areas. My own links need updating and I will get there one day! Mark Treadwell has some great WebQuests on his site <http://www.teachers-work.com/reviews/webquests.asp>
- Draft/recraft stories at writing time, have a sheet on the wall by the computer showing features of Word ( We have a lovely new resource which has easy to understand instructions on Word and other programmes, it should be available for all by the time I write this)
- Collaborative stories. Three children per computer sharing the writing process
- Storybuilding. Someone writes a starter, each child takes a turn to add to the story or poem

## **Maths**

- You can make your own tailor made worksheets to suit any topic at the following sites: [Worksheets @ Bargo PS](#) or <http://www.teach-nology.com/worksheets/math/> or <http://www.superkids.com/aweb/tools/math/>
- Some senior children may like to make their own. It can be a good problem solving exercise.
- Use the Computer Classroom maths CD Roms to reinforce a lesson you have taken, this can be an independent activity or a paired activity.
- Plot graphs, create tables and make databases using Word (Think tank has excellent interactive lessons for teachers to use Word, also we have the new instruction resources you can print out and have on the wall by your computer)
- Use Excell to create databases and formula presentations (Go to Think Tank to learn about it)

## **Topic Study**

- Internet searches – Have a method for this, I use a card system, check out the ICT resources for Internet Study I have had them laminated and available at the photocopy section in the resource room. Check these ones out too, you can print these out : [Computer Research Cards](#)
- Have children cut and paste important points into a Word document, then they can save it under their topic and use this to create their own presentation in their own words. Often children will try to print out pages from the Internet and they don't bother to actually read it (it can also be really long and is a waste of paper and ink) If you force them to cut and paste important bits they are encouraged to read it and think about it. This can be a group activity with a maximum of three at the computer reading and deciding which bits are important – good idea to make it mixed ability.
- WebQuests are a great idea for topic study, see them at the following sites and bookmark the ones you are using for quick access in your webquest folder.

- Presentations of topic studies can be made on Powerpoint See Think tank for instructions if you are not sure. I have made a booklet of Powerpoint instructions,

it is in the ICT section of the resource room, each page has a picture of the screen with step by step instructions so you can have it open at the appropriate page and follow them as you go.

- Make an imovie – takes up heaps of space so download it on to a CD rather than keep in the computer.
- Use iphoto or photo editor to edit photos and create a montage for wallcharts
- Make a website using Frontpage (See think tank for instructions or check out my instruction booklet in resource room) Children could then present this web presentation to other classes using the public folder or the school web site Intranet

## **Social Studies Sites**

The following sites are suitable Internet resources for Social Studies:

[A Walk Through Time](#)

[What is the capital city of ...](#)

## **Music**

There are some great sites for music on the web. We are learning about instruments of the orchestra and the children learnt a lot at this site:

Other sites for music are <http://www.eduscapes.com/seeds/music.html>  
[http://4dw.net/bestteacher/MusicWebquest/MusicWebquest.html#Quest\(ions](http://4dw.net/bestteacher/MusicWebquest/MusicWebquest.html#Quest(ions)  
<http://members.zoomlynx.com/%7Edmentzer/WebQuests02/HART/BENNYG%7E1.HTM>  
<http://www.42explore.com/classmus.htm>  
<http://www.42explore.com/folkmusic.htm>  
<http://www.42explore.com/rocnroll.htm>

The children can get very creative putting music to their imovies or slideshows too.

## **Art**

There are some great sites for art studies, here are some:

## **Graphics**

[The Amazing Picture Machine](#)  
[Animation Factory's Mediabuilder](#)  
[Free Site Templates says put your title here](#)  
[Clip Art Listing](#)  
[Clipart.Com](#)
